

Dear Hiring Manager,

## Application for a Suitable Opportunity

I am Dinesh Kumar S, a B.Tech Information Technology student at Erode Sengunthar Engineering College with a CGPA of 7.83. I am seeking an opportunity to apply my technical foundation, hands-on development experience, problem-solving ability, and curiosity for continuous learning while growing with the organisation.

I have a strong foundation in **Java, Object-Oriented Programming, problem solving, and full-stack web development**. I have also gained hands-on experience with **React.js, Node.js, Express.js, MongoDB, REST APIs, and database operations**. I enjoy understanding how different parts of an application work together and applying concepts by building projects rather than learning only through theory.

During my internship at **Codec Technologies Pvt. Ltd.**, I independently built **ThinkHub**, a full-stack community blogging application. I worked on connecting the React frontend with a Node.js and Express.js backend, developing REST APIs, working with MongoDB and Mongoose, handling frontend-backend integration, validation, debugging, and deployment. This gave me practical exposure to how a complete web application is built and maintained.

I have also built **MetaQR**, a QR Code Generator using HTML, CSS, and JavaScript, where I worked with DOM manipulation and LocalStorage, along with my own deployed portfolio website. These projects reflect how I learn: **understand a concept, implement it, face problems, debug them, and improve the solution**.

If given an opportunity, I would bring **curiosity, adaptability, clear communication, ownership, and a willingness to learn**. I am comfortable learning new technologies, working through unfamiliar problems, and continuously improving my skills. I am also interested in understanding how technology creates real business value and improves the way organisations operate.

As an early-career candidate, I do not claim to know everything, but I am confident in my fundamentals and highly motivated to learn through real-world challenges. I believe I can grow quickly with the right opportunity and become a dependable contributor to the team.

I would be grateful for an opportunity to demonstrate my abilities and contribute to your organisation. My resume is attached for your reference, and I would welcome the opportunity to discuss my skills and projects further.

Yours sincerely,

**Dinesh Kumar S**
